## EDUCATION

**BACHELOR'S DEGREE** **2021 - Current**

Department of Mechanics and Mathematics. Statistics.  
Oles Honchar Dnipro National University

## ABOUT ME

As a proactive Frontend Developer, I initiated the transition to React for the company's tech framework, leading to a 30% reduction in website maintenance, a 20% performance boost, and a 15% increase in global user engagement. I am a quick learner committed to adapting to new technologies for ongoing skill enhancement and project success.

## WORK EXPERIENCE

**Deutch Medical**

**August 2023 - December 2023**

NDA

**Technologies:** Next.js, React.js, TypeScript, Redux Toolkit, Antd, Webpack, Vite, Stripe

**CHI SOFTWARE**

**August 2022 - Sep 2023**

*MEDICAL CLINIC WEB APPLICATION*

**About:** Created a user-friendly web application for a medical clinic, making it easier to manage patient information and appointments, ultimately improving the clinic's efficiency.

**Technologies:** React.js, TypeScript, React Redux, Redux Toolkit, Material UI, Webpack, Vite, Jest, react-testing-library, Node.js, Docker

*IT COMPANY WEB APPLICATION*

**About:** Developed a website for an IT company, focusing on user-friendly features like form validation and responsive design. This boosted client acquisition and improved the overall user experience.

**Technologies:** React.js, TypeScript, HTML, CSS (LeSS, SaSS, Tailwind), React Redux, Redux Toolkit, and Material UI.
